Profile

Dedicated and approachable IT consultant/solution partner with over 10 years of experience in technology consulting and project management. A collaborative team player and proactive leader, skilled in working with multidisciplinary teams to achieve top performance and exceed client expectations. Highly detail-oriented, with a strong background in technology consulting, ensuring effective cyber security project development and support. Known for driving project success, enhancing client satisfaction, and consistently meeting or exceeding project goals. A strategic thinker, adept at identifying opportunities for optimization and value creation across cybersecurity initiatives.

Experience

DIGITAL OPERATIONAL RESILIENCE CONSULTANCY | BITVAVO B.V. | FEB 2025 - DORA & MiCAR IT Project Manager

Strategic Regulatory Leadership: Spearheading the end-to-end organizational compliance program for DORA (EU 2022/2554) and the MiCAR (Markets in Crypto-Assets Regulation) application process, ensuring full alignment with RTS/ITS and National Competent Authority (NCA) requirements.

Time-Critical Project Management: Driving complex, cross-functional workstreams under stringent, non-negotiable regulatory deadlines; utilizing critical path analysis and resource optimization to ensure 100% on-time delivery of licensing files and compliance frameworks.

Operational Resilience Architecture: Embedding excellence into core business and technical operations by designing frameworks for ICT Risk Management, Digital Continuity, ICT Third-Party Oversight, and Asset Segregation.

Audit & Regulatory Readiness: Acting as the primary strategic partner for AFM, DNB, BaFin, BSI, and NCAs, coordinating cross-functional teams to resolve findings, perform gap assessments (ISO 27001, NIST, COBIT), and implement sustainable remediation plans.

Cross-Sector Technical Consultancy: Leveraging deep expertise across Banking, Crypto, Fintech sectors to provide specialized readiness for DORA, MiCAR, PSD2, AMLR, TFR regulations ruled by AFM and DNB in the Netherlands.

Crisis Management & Simulations: Creating end-to-end Business Continuity (ISO 22301) projects and facilitating high-pressure "War Game" simulations to test executive decision-making and organizational response under realistic threat scenarios.

Stakeholder Orchestration: Facilitating workshops across all organizational levels to map "as-is" processes, identify compliance gaps, and translate complex legal mandates into actionable, future-ready strategic roadmaps.

Digital Integration: Utilizing organization-specific GRC tools and collaborative platforms (Google Workspace, PM tools) to streamline reporting, ensure transparent communication, and automate follow-up on critical compliance KPIs.

CYBER SECURITY CONSULTANCY | EY GERMANY GSA & FSO | NOV 2018 – DECEMBER 2024

Cyber Security Management - Subject Matter of Expert

Institutions Regulatory Readiness Analysis and Advisory

- Provided regulatory readiness consultancy for leading international firms in the insurance, banking, cryptocurrency, fintech, oil and gas, health, and automotive sectors, specializing in BAIT, MaRisk, DORA, and KRITIS regulations, as well as ISO 27001, ISO 22301, NIST, and COBIT framework-based gap assessments and external audits. Acted as a strategic problem-solver and communication partner, coordinating cross-functional teams to address issues, propose solutions, and create action plans to resolve BaFin and BSI findings. Collaborated with stakeholders across various countries and organizational levels, facilitating workshops to assess and document current processes, identify compliance gaps, and develop actionable plans. Utilized organization-specific tools, such as Google Drive, MS Teams, and various applications, to streamline reporting and support effective, transparent communication and follow-up
- Business continuity and crisis management end to end project management in finance, e-commerce, telecommunications and other industries, war game simulation facilitation
